Open letter to the blended coworkers in the Lord's recovery

May the abundant grace from our dear Lord Jesus be with you all. Last weekend, we held a blending meeting for responsible brothers and serving ones from the churches in Colombia that follow closely the ministry of the age. We are having these meetings every month and half, since two years ago. The purpose of these meetings is to provide the leading brothers with a specific time to blend together in the ministry of the age. This time, 50 saints from 14 different localities attended, not including 8 more localities from the northern coast, that could not attend for different reasons. During the weekend, we digested in small groups the first three messages from the "Crystallization Study on the Body of Christ". At the end of the meetings, we all have the feeling to partake of a more intimate meeting with just the responsible brothers, to have fellowship concerning the warning letter related to brother Titus Chu and some of his coworkers. Most of the brothers knew already the content of the letter, because they have already visited the web page www.afaithfulword.org in Spanish. In spite of that, we also gave them CD's with the totality of the fellowship, for their information. At the end of the meeting, we all had the feeling to write a letter to you, the blended coworkers, to express our feelings concerning the current situation in the Lord's recovery:

1. First of all, we want to thank you brothers for your faithful word concerning the different ministries that are causing confusion and division among the churches and the saints in the Lord's recovery.
2. We want to declare in a unanimous way, that we are one with the unique ministry from our dear brothers Nee and Lee, and that we have no business with any other "ministry", in the churches in our area.
3. We want to consecrate ourselves to follow faithfully the unique ministry and promote only the materials distributed by LSM, in the churches in our area.
4. We are open for the visitation and the shepherding of the blended coworkers. We expect to have, in a regular basis, an international conference similar to the one that took place in Cali, on June this year.

5. We are also open to continue in the fellowship of the Body, to hold the 96L training, once the Lord opens the way.

After making these declarations, we also want to open the fellowship with you brothers concerning the work in Colombia. After we received the warning letter concerning brother Titus Chu, some churches have been calling to invite us to visit and shepherd them with the ministry of the age. The church in Magangué, (in the northern coast), has called already four times and also send to us a written invitation signed by the responsible ones, so that we may visit them ASAP. They say that at least 6-8 localities in their area are open to the ministry of the age. If we attend their invitation, these localities will also travel to Magangué to blend with us. For many years we have been very cautious concerning the work in Colombia, because we understand that there's already a work going on with brother Edward Stanford and brother Julio Sánchez. Nevertheless, after we received brother Benson's letter, we got clear that if we receive an invitation, we have to pray, consider in front of the Lord, and then decide whether to accept the invitation or not. We have been praying and considering, but still we would like to receive your fellowship before doing anything. We are aware of the responsibility of imparting the ministry of the age, to all the churches in Colombia that are open to receive the life supply contained in this ministry.

Once again, thank you for your faithful word. We will continue praying that the Lord may strengthen your inner man, to continue speaking a faithful word to the churches and the saints in the Lord's recovery.

Yours in Christ,

Fourteen localities from Colombia

P.S. We will send by mail the original letter with the signatures included.
